

Stewardship in Gladstone Harbour

“Stewardship has been defined by GHHP as ‘responsible planning and management actions.’”

You are to use the Gladstone Healthy Harbour Partnership Technical Report, Gladstone Healthy Harbour Partnership Stewardship Reporting Project and other research to investigate and write a report on the current and future stewardship practices in the Gladstone Harbour.

Your report should investigate key stewardship practice across the port, industry and recreation use:

- Port stewardship
- Heavy industry stewardship
- Urban stewardship

Your report should include the following headings:

- Introduction
 - * Define what is stewardship is.
 - * Discuss why is stewardship important in the Gladstone Harbour?
- Current Practice
 - * Outline current stewardship practices in the Gladstone Harbour.
- Effectiveness of Current Practice
 - * Identify and analyse the effectiveness of current stewardship practice in the Gladstone Harbour.
 - * Use researched data to justify your decision of the effectiveness of current stewardship practice.
- Recommendations
 - * Propose future strategies to improve local stewardship practices in the Gladstone Harbour.
